SUMMARY

Backend Developer skilled in building efficient APIs and scalable systems with expertise in **NestJS microservices**, **SQL**, **AWS**, and **PostgreSQL**. Experienced in **Redis**, **EJS**, and **Prisma** for optimized backend solutions. Passionate about backend development, database optimization, and eager to explore opportunities in **.NET** and **full-stack development**.

EXPERIENCE

Backend Developer
InFineIT Global Services LLP
📅 06/2024 - Present   📍 Surat
Software Development
- Designed and implemented microservices using NestJS
- Integrated Prisma ORM with PostgreSQL
- Optimized system performance and reliability

Dot Net Developer
InFineIT Global Services LLP
📅 07/2023 - 06/2024   📍 Surat
Software Development
- Developed and maintained robust desktop applications using .NET WinForms
- Implemented scalable and maintainable web applications with .NET MVC

Project Developer
Collage project
📅 01/2020 - 04/2023   📍 India
Worked on college-based projects focusing on various web development technologies.
- Developed an E-Commerce website using WordPress
- Develop Society Management project Using ASP.NET
- Food Ordering website in PHP

EDUCATION

Matriculation
SRY High School
📅 05/2017 - 04/2018   📍 Ankleshwar, GJ

Intermediate/Higher Secondary/10+2
Agausti Education
📅 05/2018 - 05/2020   📍 Ankleshwar, GJ

Bachelor of Science: Computer Science
Narmda College
📅 08/2020 - 05/2023   📍 Bharuch

KEY ACHIEVEMENTS

💎 **Developed and maintained robust desktop applications**
Using .NET WinForms and scalable web applications with .NET MVC, streamlining business operations and enhancing user experience.

💎 **Designed and implemented scalable microservices**
Using NestJS, enhancing system modularity and performance while ensuring high availability and fault tolerance.

💎 **Integrated Prisma ORM with PostgreSQL**
Optimizing database operations and reducing query execution time, significantly improving application efficiency.

💎 **Successfully built and deployed multiple web applications**
Including an E-commerce site with WordPress, a Society Management system with ASP.NET, and a Food Ordering platform using PHP, showcasing strong full-stack web development capabilities.
